Your cat's claws are made of the same stuff as hair and fingernails Like all fingernails and hooves, cats' claws are made of a protein called keratin. Claw tissue grows in layers, thanks to the...

5 Fast Facts About Your Cat's Claws - Catster

Initially, I was cool to A Kitten Tale. The illustrations still don't totally hit the sweet spot for me. But, as with Bonny Becker's A Visitor for Bear (coincidentally published the same year: 2008), this story grew on me. I am particularly enamored of the star--that fourth kitten--and his sustained excitement through the seasons, despite 3-to ...

Dear Santa Claws - A VOKRA Tale

It's believed that through play with each other, young cats learn to inhibit their bites and sheathe their claws when swatting. The degree to which individual cats learn to inhibit their rough play varies, and those who were orphaned or weaned early might never have learned to temper their play behavior.

Aggression in Cats | ASPCA

Synopsis for "Beware the Claws of the Cat" Greer Grant was a sophomore at the University of Chicago when she met and fell in love with rookie policeman Bill Nelson. She dropped out of college to marry him, but a year later he was killed when they interrupted a robbery.
